

Concept Abstract

Submit the one-page abstract with your concept video. Abstract submission is required before concepts are posted online.

In a few words, describe the general idea of your concept (game/social media/signs/book, etc.)

MYNASCLIQ is an informal network of stakeholders in the global mining industry that uses technology and prizes to innovate

The game plan is centered around the advancement of mining education that aims to solve real-life problems in the industry

By collaborating with the knowledge based-team, company and project administrator - MYNASCLIQ.

It's a partnership that involves working with students, teachers, and companies within the mining community.

In a brief paragraph, describe your concept and how it will change the public's perception of mining.

Our concept will facilitate knowledge transfer from the knowledge-based team to the company

And we will ensure the knowledge is embedded in the company's culture

We will also educate the public on opportunities and possibilities in mining techniques

The long term goal is to unleash the youths while creating a positive perception about mining

Thereby creating a conglomerate of innovators solving more problems in Nigeria as a gateway to Africa.

In a few words, describe your intended audience.

The target audience is the public who are losing hope in the mining industry as it is not been well managed and monitored

This bootcamp was designed to support small scale miners, students and unemployed youths.

We intend to start with secondary schools around tertiary institution offering mining engineering and technology programs

Cities of immediate interest within Nigeria include Ado-Ekiti, Akure, Auchi, Ilorin, Lokoja, Jos, Kaduna and Port Harcourt

We will also attract inquisitive, bright and serious international students to solve problems that impacts the local community.

How far reaching do you envision your concept, that is, how many people and at what age ranges do you think your concept will reach?

We intend to reach people within the age gap of 14-40, male or female, with an estimated population of 11.2million.

This knowledge transfer partnership will help identify innovative solutions that helps businesses to grow.

There will be a better use of knowledge, technology and skills available within the Nigeria Knowledge base

Which leads to improved operations, quality products, increased sales, job creation and access to new markets.

Testimonials will promote investments and diversification in highly demanded products or mining techniques.

Please show a general breakdown and total projected cost of your project, if it were to be noticed or sponsored.

Wages for supervision (To be determined by university or 5% of fulltime economic salaries paid by company)

Transportation for field work (To be determined by company)

Stipends for students (To be determined by company)

Administrative:(\$500) Internet & Phone (\$500), Prizes (\$3000)

Marketing Campaigns (\$500), Website Design and Management (\$500),

Briefly please include any additional information you would like judges to know about your concept.

To make this project a reality, we intend to think global but act local seeing youths empowered and communities transformed.

With power of technology, our projects will stimulate the interest of the general masses till underlying problems are revealed.

We will attract donations from sponsors, recruit capable participants, educate and inspire the others to reach for similar goals.

While generating the ideal solution to prevailing problems in a timely and compliant manner.

This bootcamp is an open innovation system that encourages public participation in solving real-time industry problems.
