

Concept Abstract

Submit the one-page abstract with your concept video.
Abstract submission is required before concepts are posted online.

Team Name, Concept Name, Team Lead Name:

SPACE MINERZ

In a few words, describe the general idea of your concept (game/social media/signs/book, etc.)

The concept is the creation of a global community of Space Mining which would propagate its ideas to common people thro social media accounts, magazines etc.

In a brief paragraph, describe your concept and how it will change the public's perception of mining.

We feel this is the best way to change the perception about mining. Until people start knowing about some unique feature of a field, they don't assume it to be good. We will have to project 'Space Mining' as the future of mining in order to change the preconceived notion. Resources on Earth will not last forever. Thus, it becomes our duty to impart the knowledge of Space mining to the forthcoming generations so that they can extract the necessary minerals from space.

In a few words, describe your intended audience.

Although this idea will attract people from all walks of life, we think that the youngsters will find the idea more relatable.

How far reaching do you envision your concept, that is, how many people and at what age ranges do you think your concept will reach?

The concept will reach upto 1000 people, majority of whom will be from the age group of 18-30.

Please show a general breakdown and total projected cost of your project, if it were to be noticed or sponsored.

1000\$ for the publication of magazines, designing the website and pamphlets.

Briefly please include any additional information you would like judges to know about your concept.

None
